Portfolio: mmfportfolio.netlify.app

PROFESSIONAL SUMMARY

Frontend Developer transitioning from a background in software engineering and technical leadership within the telecommunications industry. After 9+ years working on large-scale systems (C++, Linux, Agile environments), I am now focused on building modern web applications with React and JavaScript. I bring structured problem-solving, system-level thinking, and a practical understanding of how complex software products are designed, built and maintained end-to-end.

SKILLS

Frontend: React, JavaScript (ES6+), HTML5, CSS3, Component-Based Architecture, React Hooks (useState, useEffect), Responsive & Mobile-First Design, Accessibility basics
Tools & Technologies: Git, GitHub, Jira, npm, REST APIs, JSON, Chrome DevTools, Figma,
Testing: Basic unit testing (Jest, React Testing Library)
AI-Assisted Development: ChatGPT, Claude, GitHub Copilot (AI-assisted coding & debugging)
Additional: C++, Linux, Agile/Scrum, Code Review, Cross-Browser Testing
Languages: English (C2), Romanian (C2), German (A1/A2 actively learning), Spanish (A1)

PROFESSIONAL EXPERIENCE

Frontend Developer | Self-employed | Remote

January 2025 – Present

Transitioned into modern frontend development through intensive self-directed learning and a structured bootcamp (GoIT Global). Built and deployed multiple React applications with focus on clean code, component-based architecture, and responsive design.
Key Projects:

- **CalorieIQ (calorieiq.ro)** – AI-assisted React application. Defined frontend architecture, component structure, and UI/UX decisions. Managed AI-generated code through systematic review, debugging, refactoring, and quality control. Implemented reusable components, dynamic forms, and responsive layouts.
- **Portfolio Website (mmfportfolio.netlify.app)** – Responsive personal portfolio with live demos and GitHub links.
- **E-Learning Platform(mm-elearning.netlify.app/**– Multi-page React/Vite application demonstrating structured content, navigation, and consistent UI patterns.

Team Manager | Nokia | Timisoara, Romania

February 2022 - August 2024 (2 years 7 months)

Led cross-functional team of 15+ engineers in telecommunications software development.

- Collaborated with developers on technical requirements, user stories, and backlog prioritization
- Worked in agile environment with continuous technical team interaction

Fault Manager / Agile Product Owner | Nokia | Timisoara, Romania

November 2019 - February 2022 (2 years 3 months)

Product Owner and critical issue coordinator managing product backlog and facilitating communication between technical and business teams.

- Collaborated with development teams defining technical requirements and user stories
- Prioritized product backlog based on technical dependencies
- Managed technical issue escalations coordinating resolution efforts
- Facilitated daily interaction with development teams in agile environment

Software Engineer | Nokia | Timisoara, Romania

July 2015 - November 2019 (4 years 5 months)

- Developed and tested features for telecommunications alarming systems using C++ and object-oriented programming
- Wrote clean, maintainable code following best practices and coding standards; code reviews
- Debugged complex technical issues applying systematic problem-solving
- Worked with version control (Git, SVN) and issue tracking (Jira) daily

---

EDUCATION

M.Sc. Technologies, Systems and Applications for E-Activities | Politehnica University of Timisoara | 2019
Diploma Project: Multimedia Applications for cultural environment

B.Sc. Electronics and Telecommunications Engineering | Politehnica University of Timisoara | Timisoara | 2017
Diploma Project: Led Cube 8x8x8 with graphical control interface

TRAINNING

Frontend Developer Bootcamp | GoIT Global | 2025
JavaScript, HTML5, CSS3, React.js, Git, Responsive Design

NokiaEDU Training - Insight Into Leadership | Vimercate, Italy | 2019
Interpersonal skills, conflict resolution, planning, influencing without authority

Nokia Workshop - Agile Development | Timisoara, Romania | 2017
Agile principles, Scrum methodology, teamwork and delivery
