MIHAELA DRONDU

Technical Project Manager | Product & Engineering Coordination

Darmstadt, Germany | +49 174 4610933 | elamihai.mm@gmail.com
LinkedIn: linkedin.com/in/mihaela-mihai

PROFESSIONAL SUMMARY

Technical Project Manager with 9+ years of experience in telecom and software-driven environments. Experienced in leading cross-functional teams, coordinating complex projects, and ensuring structured delivery using Agile methodologies. Strong background in software development and systems thinking, currently expanding technical expertise through hands-on web development and AI tools.

SKILLS

Leadership: Team Leadership, People Development, Performance Reviews, Resource Allocation, Stakeholder Engagement, Hiring
Project Management: Agile/Scrum, Product Ownership, Backlog Management, Sprint Planning, Risk Management, KPI Tracking
Technical: Software Development Lifecycle, Requirements Analysis, C++ Development, Web Technologies (React, JavaScript, HTML, CSS)
Tools: Jira, Confluence, SAP, Git, MS Office Suite, ChatGPT, Claude, Gemini
Languages: English (C2), Romanian (C2), German (A1/A2 actively learning), Spanish (A1)

PROFESSIONAL EXPERIENCE

Web Development & Technical Projects | Self-employed | Remote

January 2025 – Present

Pursuing hands-on technical upskilling in modern web technologies and AI-assisted development tools to strengthen technical leadership capabilities.

- Completed intensive training in modern web technologies (React, JavaScript, HTML, CSS) through bootcamp and self-directed learning. Built multiple projects (mmfportfolio) demonstrating commitment to staying current with technology trends
- Built and deployed CalorieIQ (calorieiq.ro), an AI-powered nutrition platform, managing the full project lifecycle: requirements definition, UI/UX design, architecture decisions, development coordination using AI tools (ChatGPT, Claude) and coordination with backend development, quality review and deployment

Team Manager | Nokia | Timisoara, Romania

February 2022 - August 2024 (2 years 7 months)

Led cross-functional team of 15+ engineers in telecommunications software development.

- Managed resource allocation, performance reviews, career development, and hiring

- Tracked and reported KPIs: delivery timelines, quality metrics, team productivity
- Served as primary interface between engineering teams and senior leadership
- Facilitated collaboration between development, testing, customer care, and international teams

Fault Manager / Agile Product Owner | Nokia | Timisoara, Romania

November 2019 - February 2022 (2 years 3 months)

Product Owner and critical issue coordinator managing product backlog and facilitating communication between technical and business teams.

- Managed and prioritized product backlog ensuring alignment with business objectives
- Led agile ceremonies: sprint planning, backlog grooming, reviews, retrospectives
- Managed fault reporting and critical escalations, coordinating cross-functional task forces
- Facilitated communication between development, testing, customer care, and stakeholders on requirements, user stories, and acceptance criteria
- Monitored and reported on sprint velocity, bug resolution rates, and delivery metrics

Software Engineer | Nokia | Timisoara, Romania

July 2015 - November 2019 (4 years 5 months)

- Developed and tested features forS alarming systems using C++ in Linux environment
- Collaborated in agile development, code reviews, and technical design discussions
- Analyzed complex customer issues requiring deep technical troubleshooting
- Worked with version control (Git, SVN) and issue tracking (Jira)
